**Solution :** Enterprise Cloud Services, Disaster Recovery  
**Outcome :**

- Highly scalable IT infrastructure
- Meeting 100% compliance as per RBI
- DR solutions
- 100% availability all times

## Challenges for Trust Systems & Software

- Trust Systems & Software, a leading core banking solution provider focused on delivering system integration solutions to their clients. They were looking to partner with an industry leader who could deliver innovative and cost-effective solution for their business operation.
- For a BFSI solution provider, maintaining the critical financial data is of utmost priority. It is crucial for them to ensure that their customer's data is kept secured and that there is no data loss either. Having a dependable Disaster Recovery solution partner was critical to their business.

## About Trust Systems & Software

Trust Systems started in Nagpur in 1998 and has carved out a niche for itself in the field of banking solutions, ERP implementation, and customized software. It has worked on various platforms and has recently launched its core banking solution TrustBankCBS. Trust is catering to all needs of digital banking in today's fintech world.

“NxtGen helped us in improving uptime, scalability and our banking customers are satisfied with NxtGen’s hosting services.”

**HEMANT CHAFALE,**  
(CEO, Trust Systems & Software Pvt. Ltd.)

## The NxtGen Solution

- NxtGen’s Enterprise Cloud Services delivered Trust Systems & Software an on-demand and highly scalable IT infrastructure with guaranteed 100% availability all times.
- Trust Systems & Software has deployed their applications at NxtGen Data center in Mumbai and Bangalore. NxtGen’s DR solution makes it possible for them to keep-up with their business demand and protect them in the unlikely event of a disaster.

## The Outcome

- NxtGen’s pay-per-use model delivered them cost-effective solution meeting 100% compliance as per RBI guidelines.
- Trust Systems & Software managed to build IT resilience through NxtGen’s Disaster Recovery solution and deliver a 100% available core banking solution to their BFSI customers.

“Our customers have gained on security issues, uptime issues and cost effectiveness through NxtGen solutions.”
